

An LMF Model for a French-Romanian Collocation Dictionary

Amalia Todirascu

LiLPa, University of Strasbourg

- An existing bilingual verb+noun collocations dictionary (Todirascu et al, 2008)
 - Collocations : MWE having specific syntactic and semantic behavior
 - Complex morpho-syntactic properties (of the noun, of the verb and of the collocation itself)
- LMF (Francopoulo *et al*, 2013)
 - Other collocation dictionaries : Lexicon-Grammar tables (Laporte *et al*, 2013) DuELME (Odijk, 2013)
 - Our LMF model :
 - multilingual lexical entries (classes of verb+noun collocations)
 - Rich subcategorisation information
