Documenting and processing
multimedia knowledge on European
culinary culture

Stella Markantonatou, Cvetana Krstev, Dusko Vitas

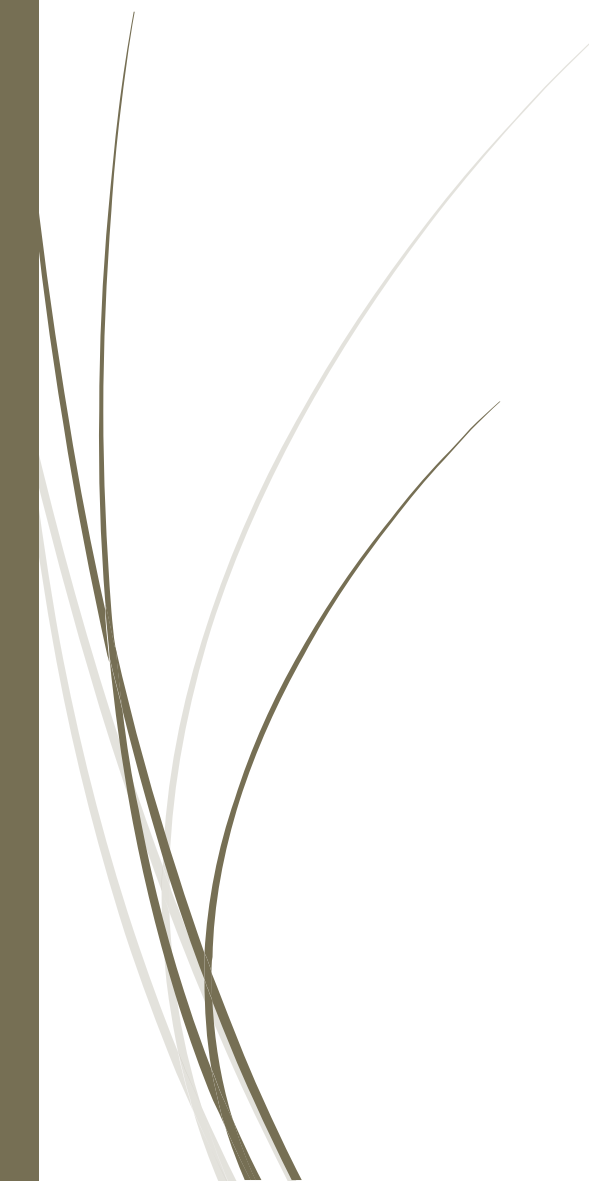

Who: experts in food and cooking, (computational) linguists, multimedia specialists

- Multimodal corpus development: a European federation of multimodal culinary culture resources (recipes, videos, advertisements, critiques etc)
- **Use the knowledge developed in PARSEME to establish mono (because of dialects)- and multi- lingual correspondences:**
 - MWES (and terminology)
 - Patterns of expressing politeness, (dis)satisfaction, craving, ...
 - Figurative language related to food
- NLP/MT: documentation methods, opinion mining,...

Enriched lexical resources

- ▶ WordNet (BalkanNet project) – Serbian and Greek
 - ▶ Ontology of Rhetorical Figures (Serbian with Greek examples)
 - ▶ Conceptual lexicon (Greek, contains verbal MWEs)
