

Parseme STSM policy

(Accepted in March 2015)

1. Decisions are made 4 times per budget year. Exception: for the last quarter if there is some money left decisions are made as applications are received (in 7 days)
2. Up to 50% of the STSM budget can be allocated in the first quarter (on the first SC meeting): up to 70% in the first two quarters (on the second SC meeting), up to 90% in the first three quarters (on the third SC meeting), 100% up to the end of the budget year (forth SC meeting).
3. If the above percents are not reached at the stated intervals, more money can be allocated to already approved STSMs (if justifiable).
4. Application can be made for the next budget year during the last quarter of the previous budget year, and decisions made during the 4th SC meeting.
5. We are particularly strongly encouraging STSMs planned for April and May since this is the period when all meetings have been reimbursed and it is known exactly how much of the budget remained from the year.
6. In the case of a large number of good applications that cannot all be accepted we will take care about the COST recommendation: "Necessary geographical and gender balance issues are to be taken into consideration and applications from ESR should be privileged."
7. The following per diem reimbursement rates are recommended per countries. The calculation is based on the following:
 - a. The maximum per diem in COST is 160 EUR
 - b. Per Diem rates applied in contracts by European Commission (https://ec.europa.eu/europeaid/diem-rates-applied-contracts_en, last corrected in February 2014)
 - c. EU per diem \geq 270 EUR \rightarrow max COST rate = 160
 EU per diem [240, 270) EUR \rightarrow 90% max COST rate = 144
 EU per diem [210, 240) EUR \rightarrow 80% max COST rate = 128
 EU per diem [180, 210) EUR \rightarrow 70% max COST rate = 112
 EU per diem $<$ 180 EUR \rightarrow 60% max COST rate = 96
 Recommended rates are calculated as follows: the recommended rate for the most expensive countries is 112, all other rates are again same percent as for the maximum rate.
